

Online Job Portal

1. Overview

Job portal is developed for creating an interactive job vacancy Portal for candidates.

This web application is to be conceived in its current form as a dynamic site-requiring constant updates both from the seekers as well as the companies.

The objective of the project is to enable job seekers to place their resumes and find appropriate jobs while companies to publish their vacancies and find good candidates.

It enables job-seekers to post their resume, search for jobs, view personal job listings. It will provide various companies to place their vacancy profile on the site and also have an option to search candidate resumes.

2. Objectives

- To enable job-seekers to place their resumes and find appropriate jobs
- To enable companies to publish their vacancies and find good candidates.
